Dark light pushes beetwen us  
From different worlds they don't see us  
Time is running without you  
I love the way You do,  
I love the way You move  
Tell me how does it feel like  
Colours blowing our heads now  
I don't know where's our beginning..

I've be with that  
Light pushes beetwen us  
I've be with that

I love the way you do,  
I love the way you move  
Tell me how does it feel like  
Colours blowing our heads now  
I don't know where's our beginning  
We're in the fire cave.  
Feels like we'll go insane

Ooo, ooo  
I've been waiting till we let it go  
Ooo  
I've been waiting but we're far from home

Dark light pushes beetwen us  
From different worlds they don't see us  
Time is running without you  
I love the way you do,  
I love the way you move  
Climb baby I on your face  
Filling up our sickness  
Eyes lost than in bloody balance

I've be with that  
Light pushes beetwen us  
I've be with that
