## Natalia Przybysz, Varsovie (Kayax XX Rework)

I fell in love with the city At first sight it looked pretty We used to share the same love for grey Through the blanket of clouds It wasn't easy To be sure that the sun will come back

I used to walk on the autumn leaves Now they're only burnin' my feet

Need to curse to talk about you Need you less than I felt I would What have you done to make the light go away I can cheat on you with every city But they only make love just the same

I used to walk on the autumn leaves Now they're only burnin' my feet

Wake me up in July Lick the snow from my eyes Underneath the blue sky All I need is my bike Wake me up in July Lick the snow from my eyes We can catch the shooting stars On the blackboard night sky Wake me up in July Lick the snow from my eyes Underneath the blue sky All I need is my bike Wake me up in July Lick the snow from my eyes We can catch the shooting stars On the blackboard night sky Wake me up in July Lick the snow from my eyes Underneath the blue sky All I need is my bike Wake me up in July Lick the snow from my eyes We can catch the shooting stars On the blackboard night sky
