

Natalia Safran, Say Goodbye

Is this what you wanted
To get inside my mind
Is this what you wanted
Get me all turned around

Tell me baby why you drive me crazy
Why you run around
Got me reeling losing my senses
With those lying eyes
Tell me baby why did you have to
Get me twisted inside out
Every time I think I'm out
I lose when I look in your eyes

Say goodbye
Maybe it's not meant to last
Let it fly
Don't want to fight it out tonight
Set us free
You didn't trust enough in you and me
No more why's
It's time to let it go say goodbye

Loving shouldn't be so hard
Can't help if you drive me wild
Shouldn't need the cops to come
To pull you and me apart
Leaving you would be so hard
Yet that hurt look in your eyes
Tells me that the time has come
To change for good or split us up

Is this what you wanted
To get inside my mind
Is this what you wanted
Get me all turned out

Tell me woman how do you always
Know just what to say
To get me running back
To get me eating out of your hand again

Tell me darling how is it that you never
Seem to realize what you do
What you can make me do
With just a look in your eyes

Say goodbye
Maybe it's not meant to last
Let it fly
Don't want to fight it out tonight
Set us free
You didn't trust enough in you and me
No more why's
It's time to let it go say goodbye

Loving shouldn't be so hard
Can't help if you drive me wild
Shouldn't need the cops to come
To pull you and me apart
Leaving you would be so hard
Yet that hurt look in your eyes
Tells me that the time has come
To change for good or split us up

Trouble all this trouble
Seems to follow us
Always just a step behind
Enough what's enough
Tell me with how much
Are you willing to put up

Is this what you wanted
To get inside my mind
Is this what you wanted
Get me all turned around

Is this what you wanted
To get inside my mind
Is this what you wanted
Get me twisted inside out
