

Natalie, Ooh

Always thinkin' of you (always thinkin' Of you (ooh, uh, ooh, ooh))
I jus wanna touch you (I jus wanna touch you (ooh, uh, ooh, ooh))
anything you want to (anything you want to (ooh, uh, ooh, ooh))
I just wanna love you (I just wanna love you)
you make me ooh, ooh, ooh
baby ooh, ooh, ooh

I'm feeling something that I never felt before
I ain't toyin' you I want you boy
I wanna tell you things I've been afraid to say
I want the moon now if that's okay
if I could only get one minute of your time
look in your eyes tell you why
should let me love you (you should let me love you)
so deep
the way that you had me

(Chorus)

I love the way that you bring out the best of me
just by the way you, the way you speak
so softly in my ear your driving me insane
just by the way you, you say my name
its' unreal, what I feel
is it okay, if I still
show you how I want you (show you how I want you)
I'm so amazed with everything that you do
boy you make me ooh

(Chorus)

ooooh-ooooh, baby
I just wanna love you, yeah, yeah, yeah
ooooh-ooh, oooooh-ooh, I just gotta touch you (feeling you)

(Chorus)
