

Nathan Dawe x Anne-Marie x MoStack, Way Too

Really wanna call you
But if i called you up
Would that be wrong
It's funny how i loved you
Then suddenly you're nothing but a song

Summer in the back of your car
Singing Drake in the dark
I've been reminiscing about our love
I can't help but i think about you
And the way that it was
I wish i could let go of us

It's been way too long
Oh, It's been way too long
Oh, Oh, It's been way too long
been way too long
since you've been gone

(..?..)

It's been way too long
Oh, It's been way too long
Oh, Oh, It's been way too long
been way too long
since you've been gone

Summer in the back of your car
Singing Drake in the dark
I've been reminiscing about our love
I can't help but i think about you
And the way that it was
I wish i could let go of us

It's been way too long
Oh, It's been way too long
Oh, Oh, It's been way too long
been way too long
since you've been gone

It's been way too long
Oh, It's been way too long
Oh, Oh, It's been way too long
been way too long
since you've been gone
