Nathan Dawe x Anne-Marie x MoStack, Way Too

Really wanna call you But if i called you up Would that be wrong It's funny how i loved you Then suddenly you're nothing but a song

Summer in the back of your car Singing Drake in the dark I've been reminiscing about our love I can't help but i think about you And the way that it was I wish i could let go of us

It's been way too long Oh, It's been way too long Oh, Oh, It's been way too long been way too long since you've been gone

(..?..)

It's been way too long Oh, It's been way too long Oh, Oh, It's been way too long been way too long since you've been gone

Summer in the back of your car Singing Drake in the dark I've been reminiscing about our love I can't help but i think about you And the way that it was I wish i could let go of us

It's been way too long Oh, It's been way too long Oh, Oh, It's been way too long been way too long since you've been gone

It's been way too long Oh, It's been way too long Oh, Oh, It's been way too long been way too long since you've been gone
