

Nathan Sykes, Over And Over Again (feat. Ariana Grande)

[Nathan Sykes:]

From the way you smile
To the way you look
You capture me
Unlike no other
From the first hello
Yeah, that's all it took
And certainly
We had each other
And I won't leave you
Always be true
One plus one, two for life
Over and over again
Don't ever think I need more
I've got the one to live for
No one else will do
I'm telling you
Just put your heart in my hands
I promise it won't get broken
We'll never forget this moment
It will stay brand new
'Cause I'll love you
Over and over again
Over and over again

[Ariana Grande:]

From the heat of night
To the break of day
I'll keep you safe
And hold you forever
And the sparks will fly
They will never fade
'Cause every day gets better and better
And I won't leave you
I'll always be true
One plus one, two for life

[Ariana Grande & Nathan Sykes]

Over and over again
So don't ever think I need more
I've got the one to live for...
