

# Neal McCoy, No Doubt About

Just like every locks got to have a key  
every river goes lookin for the sea  
and when you plant a seed  
it reaches for the sky  
it's just the way it is  
nobody wonders why  
like coffee needs a cup  
you know it ain't much good without it  
we were meant to be together  
no doubt about it

like a hammer and a nail  
socks and shoes  
we go hand and hand  
like the rhythm and blues  
what good is man  
who hasn't got a dream  
bout as good a car with no gasoline  
your the one i'm dreamin' of  
got to have your love can't live without it  
we were meant to be together  
no doubt about it  
no there aint no  
doubt about it

something was missing it was making me blue  
but all i ever needed was you

just like every locks got to have a key  
every river goes looking for the sea  
and when you plant a seed  
it reaches for the sky  
it's just the way it is  
girl with you and I

like coffee needs a cup  
you know that it aint much good without it  
we were meant to be together no doubt it  
no there aint  
no doubt about it

like a hammer and a nail  
socks and shoes  
we go hand in hand  
like the rhythm and blues  
what good is a man who hasn't got a dream  
bout as good as a car with no gasoline  
you're the one i'm dreamin' of  
got to have your love  
can't live without it  
we were meant to be together no doubt about it
