

# Neal Morse, The Promise

Princes, principalities, legals and legalities  
They have no more power before us  
Dark is their reality  
There's a light that we can see  
Lighting up the pathway before us

There's so much that we can know  
There's a godly way to go  
Can't you feel he's reaching down for us  
His is the best place to be  
He's the truth that makes you free  
Can't you feel he's keeping his promise

Princes, principalities, legals and legalities  
They have no more power before us  
There's a light that we can see  
There's a new reality  
Can't you feel he's keeping his promise now?

Princes, principalities, legals and legalities  
They have no more power before us  
There's a light that we can see  
There's a new reality  
Can't you feel he's keeping his promise, promise, promise now?

The prince of the power of the air  
Was calling me back out there  
The prince of the power of the air  
Can lead you down, can lead you down

The prince of the power of the air  
Can lead you down anywhere  
The prince of the power of the air  
He led me almost anywhere
