

Neil Diamond, Make Believe

Make believe we're in love
Let's pretend that we share eternity
Make believe, come with me far away
Let's just you and I
Bid this world goodbye

Make believe
Make my life worth living
Stand by me to the end
Happiness comes in giving
Is it so hard to pretend?

Close your eyes, take my hand
I may be a fool
Still I pray that you'll
Make believe

Make believe we're in love
Why can't you pretend
That we're more than friends
Make believe, come with me far away
Fill each lonely night
With a love that's right

Make believe
Make my live worth living
Stand by me to the end
Happiness comes in giving
Is it so hard to pretend?

Close your eyes, dream with me
I may be a fool
Still I pray that you'll
Make believe
