Neil Finn, Faster Than Light

Close your eyes
Go to sleep
Close your eyes
Get so dizzy
The world is spinning
In your bed
I know where the sun goes
It's waking up the sparrows
In England it's morning

In time, you'll see that some things travel faster than light In time you'll recognise that love is larger than life

Now you know what you're missing Now you've seen that I'm willing If you're looking for the message Close your eyes

Do you hear what I'm thinking? Is it how you've imagined?

In time you'll see that some things travel faster than light In time you'll recognise that love is larger than life And praise will come to those whose kindness Leaves you without debt And bends the shape of things that haven't happened yet

Close your eyes

Colours changing like a lizard Close your eyes

I know where the sun goes
I have seen the world turning

In time you'll find that some things travel faster than light In time you'll recognise that love is larger than life And praise will come to those whose kindness Leaves you without debt And bends the shape of things to come that haven't happened yet
