

# Nekromantix, Reincarnated Love

Jealousy told me you were fooling around  
Changed into hate when you turned me down  
Can't get her out of my head, no no  
Never again a girl like that I will find  
Baby please, give me peace of mind

Fearless, yes, babies' cries  
Witch trial, witch trial  
Burning flames  
Pumping veins, yeah  
There's no rest to be found  
Cure of soul ain't enough  
Seperated by centuries, reincarnated love

They made you admit things you've never done  
The jeers from the crowd went on and on and on  
This morbid plot I regret, yeah yeah  
She was unfaithful to me  
A long gone love lost in time for eternity
