

Nelly Furtado, Night Is Young

Visions of you
Visions of me
Everything we wanted
I wanna be frozen in time
Forever in this moment

How you wanna be?
What you wanna do?
Don't you know you make me feel
So alive

What you wanna do?
What you wanna feel?
I know you wanna live your life right

The night is young, and so are we
We can do anything
Oh love baby

The night is young, and so are we
We can be anyone
Oh love baby

Cause we are
Free, free, free..
And life is
Free, free, free..

Don't worry baby, I'll be here
To make show you're feeling right
And you can let go of all your fears
Cuz you're not going on tonight

How you wanna live
What you wanna feel
Don't you know you make me feel so alive

What you wanna do
What you wanna be
I know you wanna live your life right
The night is young, and so are we
We can do anything
Oh love baby

The night is young, and so are we
We can be anyone
Oh love baby

Cause we are
Free, free, free..
And life is
Free, free, free..

Baby its all good
(Baby its all good)
When I look at you
(When I look at you)
And I see that you
(And I see that you)
Made it trough everything
(Made it trough everything)
After all of the ups and downs
(all of the ups and down)
We figured it out

(Defending it all out)
And I will know
How to ride it out

The night is young, and so are we
We can do anything
Oh love baby
The night is young, and so are we
We can do anything
Oh love baby

Cause we are
Free, free, free...
And life is
Free, free, free...
