

Nelly, Lie

Lie, Lie, Lie, Lie, Lie

Lie, Lie, Lie, Lie

Uh, uh

Yo, yo

Yo, I'm tired of the he say, she say

Why every time they get mad, man, we pay

She wanna act like the judge and the jury

The police, FBI and the CIA (only one)

And now, it's me she trying to convict

She better show me some DNA or fingerprints

She better show me the name of the one who snitched

Matter of fact, right now I'mma plead the fifth.

[Chorus]

She said you tried to fuck her

She's a motherfucking lie

Boy please, no way, whatever, not me, yeah you

Man, she just hating

She said you met her last summer

She's a motherfucking lie

Boy please, no way, whatever, not me, yeah you

Girl, you sound crazy

She said y'all exchanging numbers

She's a motherfucking lie

Boy please, no way, whatever, not me, yeah you

Fellas, what we gon' do?

Take it to the grave (8x)

She said she did what?

Well, hoo, she wrong

Since she know so much,

Ask her what I had on.

True religion, and enjoying ???

Come on, ma, that's every nigger in the party.

But I was at the studio, affecting my hustle.

Up with Ky, Murphy, Mo, just finishing Brass Knuckles.

Now, it all leaves purses, fur coats, fly whips

I didn't ball for 'em, I used to believe any shit.

(Yeah, you is)

[Chorus]

She said you tried to fuck her

She's a motherfucking lie

Boy please, no way, whatever, not me, yeah you

Man, she just hating

She said you met her last summer

She's a motherfucking lie

Boy please, no way, whatever, not me, yeah you

Girl, you sound crazy

She said y'all exchanging numbers

She's a motherfucking lie

Boy please, no way, whatever, not me, yeah you

Fellas, what we gon' do?

[Lie lyrics from <http://www.lyricsyoulove.com/>]

Take it to the grave (8x)

3:24, and I walked in the door

Phone on loud, what it do that fo'?

She said she went down south, all in my Texas

3:30 in the morning, got that loud-ass message

I ain't even do it though, mama girl lyin'

(Tried to fuck her)

I ain't even had time

Ask her where she know me from

Who I be with, what number she dialed

That crazy girl wild

[Chorus]

She said you tried to fuck her

She's a motherfucking lie
Boy please, no way, whatever, not me, yeah you
Man, she just hating
She said you met her last summer
She's a motherfucking lie
Boy please, no way, whatever, not me, yeah you
Girl, you sound crazy
She said y'all exchanging numbers
She's a motherfucking lie
Boy please, no way, whatever, not me, yeah you
Fellas, what we gon' do?
Take it to the grave (8x)
I really don't know her, I seen her on myspace
Looked at her page, all I seen was my face
Her user name read: "Kyjuan for life"
With videos and pictures set up so right
The only bad thing is she writes me all night
Saying shit like, "The 'tics is so tight."
She ends it with "I love you", that starts the big fight
Baby, I can't control what she type.
[Chorus]
She said you tried to fuck her
She's a motherfucking lie
Boy please, no way, whatever, not me, yeah you
Man, she just hating
She said you met her last summer
She's a motherfucking lie
Boy please, no way, whatever, not me, yeah you
Girl, you sound crazy
She said y'all exchanging numbers
She's a motherfucking lie
Boy please, no way, whatever, not me, yeah you
Fellas, what we gon' do?
Take it to the grave (8x)
