

Neneh Cherry, Out Of The Black (feat. Robyn)

I'm skippin' down the street
Just tryin' to mind my business
I've got my blinkers on,
So bad stop I can win this

I see the wolf packs come, but gadin' on the corners
Hidin' their cut backs while attend into the mourners

God I hit
Behind our back
Wash your mouth
Face the pack!

Out of the black
Out of the blue
I just want you to want it too!

I mean it, I'm complete and all my kids are happy
I feel what's gone before
Will come right back and slap me!

I'm Robyn on the microphone into the speaker
You know I'm not sick like that,
but I've got a fever!
On out toes
To the black
From the red
We'll be back!

Out of the black
Out of the blue
I just want you to want it too!

These are the facts
And here is the news
we just want you.
To want it too!

Spread my wings and
Take small sips river deepsin' planet
Spread my wings planet below
life's got it
roll on me
On our toes
To the black
From the red
We'll be back!

Out of the black
Out of the bule
I just want you to want it too!

These are the facts
And here is the news
We just want you
To want it too!
We just want you
to want it too!
I want you
I want too
I want you
To want it too
I want you to want it too!
