

New Model Army, Notice Me (The Peel Session)

I'll take any drug in the whole damn world if you'll only notice me
Mainline poisons by the score - notice me
I'll break any law, and I'll hurt anybody - notice me
I'll be a pop star and I'll stand on stage for God's sake notice me

I'll drink anybody into the ground - notice me
I'll kick the teeth out of anyone here - come on and notice me
I'll wear the clothes and cut my hair if you'll only notice me
Cut my wrists and slash my face for Christ's sake notice me

Who told him that it mattered?
Who told him that anyone cared?
He's got an overgrown sense of his own importance
No one's really bothered around here
He was such a quiet boy, never any trouble before...
He was never any trouble before

I'll get a big car and drive like a maniac - notice me
I'll make a lot of money and tread on you - notice me
I'll tell you any lies you want to hear - notice me
Or I'll kill myself while you are watching

Who told him that it mattered?
Who told him that anyone cared?
He's got an overgrown sense of his own importance
No one's really bothered around here
He was such a quiet boy, never any trouble before...
He was never any trouble before
