

# Niall Horan, Black And White

## [Verse 1]

That first night, we were standin' at your door  
Fumblin' for your keys, then I kissed you  
Ask me if I wanna come inside  
'Cause we didn't wanna end the night  
Then you took my hand and I followed you

## [Chorus]

Yeah, I see us in black and white  
Crystal clear on a starlit night  
In all your gorgeous colours  
I promise that I'll love you for the rest of my life  
See you standing in your dress  
Swearin' in front of all our friends  
There'll never be another  
I promise that I'll love you for the rest of my life

## [Verse 2]

Now we're sittin' here in your livin' room  
Tellin' stories while we share a drink or two  
And there's a vision I've been holdin' in my mind  
We're sixty-five and you asked  
When did I first know, I always knew

## [Chorus]

And I see us in black and white  
Crystal clear on a starlit night  
In all your gorgeous colours  
I promise that I'll love you for the rest of my life  
See you standing in your dress  
Swearin' in front of all our friends  
There'll never be another  
I promise that I'll love you for the rest of my life

## [Bridge]

And I want the world to witness when we finally say "I do"  
It's the way you love, I gotta give it back to you  
I can't promise picket fences or sunny afternoons  
But at night, when I close my eyes

## [Chorus]

I see us in black and white  
Crystal clear on a starlit night  
There'll never be another  
I promise that I'll love you  
I see us in black and white  
Crystal clear on a starlit night  
In all your gorgeous colours  
I promise that I'll love you for the rest of my life  
See you standing in your dress  
Swearin' in front of all our friends  
There'll never be another (Never be)  
I promise that I'll love you for the rest of my life

## [Outro]

And there'll never be another  
I promise that I'll love you for the rest of my life
