

# Nick Cave, Good Good Day

See the little cloud up in the sky  
It's a good good day today  
See the little cloud pass on by  
It's a good good day today

Mary comes now, let Mary be  
Can you see her down on the street?  
Mary's laughing 'cause Mary sees  
That she's a-wearin' that dress for me.  
There can be times,  
Yeah  
When all things come together  
Yeah  
Under a clear sky and you can believe  
Yeah  
You hold your breath for this moment  
Yeah  
But do not breathe  
For this day, I know  
Is a good day, yes I know  
It's a good day, yeah I know  
Today

Hear her feet skipping up the stairs  
It's a good good day today  
She is the answer to all of my prayers  
It's a good good day today

Mary comes now, she don't knock  
'Cause she's runnin' on her own little clock  
Mary's laughing 'cause Mary knows  
That this day was made for us  
And any fool knows  
Yeah  
And any fool sees that the future  
Yeah  
Isn't down on its knees  
But let 'em all cry and let 'em weep  
Let those tears roll down their cheeks  
'Cause I can't believe  
In the one that is  
standing in front of me  
Oh this day, don't you know  
Is a good day, yes I know  
It's a good day, I told you so  
Today

See her breasts how they rise and fall,  
It's a good good day today.  
And she knows I've used that line before,  
It's a good good day today.

Mary's laughing, she don't mind  
'Cause she knows she's one of a kind  
Mary's happy just to be  
Standing next to me  
And any fool knows  
Yeah  
That the wind always blows  
Something to someone  
Yeah  
Once in a while  
So let it rain, let it pour  
Let the wind howl through your door

'Cause right now for this moment  
I'll forever be  
Standing next to her  
On this day, which I know  
Is a good day, yeah I know  
Oh, it's a good day, I told you so  
Today
