

Nick Cave, Good Good Day

See the little cloud up in the sky.
It's a good good day today.
See the little cloud pass on by.
It's a good good day today.

Mary comes now, let Mary be,
Can you see her down on the street?
Mary's laughing 'cause Mary sees
That she's a-wearin' that dress for me.
There can be times,
Yeah...
When no things come together,
Yeah...
Under a clear sky and you can believe,
Yeah...
You hold your breath for this moment,
Yeah...
But do not breathe for this day alone
Is a good day, yes I know,
It's a good day, yeah I know,
Today...

Hear her feet skipping up the stairs.
It's a good good day today.
She is the answer to all of my prayers.
It's a good good day today.

Mary comes now, she don't knock
'Cause she's runnin' on her own little clock
Mary's laughing 'cause Mary knows
That this day was meant for us.
And Mary full knows,
Yeah...
And any foresees that the future,
Yeah...
Is a-down on its knees
And are all crying and a-reelin'
And tears roll down their cheeks
'Cause I can believe in the one
That is standing in front of me
On this day, don't you know,
Is a good day, yes I know,
It's a good day, I told you so,
Today...

See her breasts how they rise and fall,
It's a good good day today.
And she knows I've used that line before,
It's a good good day today.

Mary's laughing, she don't mind
'Cause she knows she's one of a kind.
Mary's laughing, just to me,
Standing next to me
And April knows,
Yeah...
That the wind always blows
Something to someone,
Yeah...
Once in a while, so let it rain,
Let it fall,
Let the wind, oh, through your door
'Cause right now for this moment
For ever me,

Standing next to her,
On this day, which I know
Is a good day, yeah I know
Oh, it's a good day, I told you so
Today...
