Nick Cave, Little Ghost Song

Please forgive me
If I appear unkind
But any fool can tell you
Its all in your mind

Down in the meadow The old lion stirs Puts his hand ?cross his mouth He has no use for words

Poor little girl With your handful of snow Poor little girl Had no way to know

And youve got me eating Youve got me eating Youve got me eating Right out of your hand

I mean you no harm When I tell you youre blind Give a sucker an even break Hell lose it all, every time

The airborne starlings circle Over the frozen fields The hollyhocks hang harmlessly And the old lion yields

And youve got me eating Youve got me eating Youve got me eating Right out of your hand
