

# Nickel Creek, Young

Young and with no clue  
And I wanna love you  
Give me the key to  
What it's about  
Everything I've read  
And everything you've said  
Prove you're over my head  
Help me climb out

I know that you don't need nobody  
Are you sure you're that sure about me?

Hey what did I do?  
I've spoken too soon  
Listen to this tune  
Forget the words  
Wait until someday  
Cuz when I know what to say  
I'll say it in the best way  
You've ever heard

I know that you don't need nobody  
Are you sure you're that sure about me?

Young and with no clue  
Still wanna love you  
Give credit where it's due  
I've got good taste

It's not like I wanna get married  
I never asked you to kiss me  
Just don't want you to be sorry  
You didn't try
