

Nickelback, Fight For All The Wrong Reasons

Well I wanted you
I wanted no one else
I thought it through
I got you to myself
You got off
Every time you got on to me
I got caught up
In favorable slavery

Was it wrong? Was it wrong?

[CHORUS:]

I guess it wasn't really right
I guess it wasn't meant to be
It didn't matter what they said
'Cause we were good in bed
I guess I stuck around so I could watch us fight
for all the wrong reasons
No, it didn't matter what I tried
It's just a little hard to leave
When you're going down on me
I guess I stuck around so I could watch us fight
for all the wrong reasons

Well you know my friends
Well they know your enemies
I'd pretend
Not to hear what they said to me
'Cause I got off
Every time you got on to me
Was it wrong
To go along with insanity?

Was it wrong? Was it wrong?

[CHORUS]

[x4]
I guess it wasn't what I wanted
Wasn't really what I thought
Thought it was the day I got
I want it all to go away(x4)

[CHORUS]
