

# Nicole Scherzinger, On the Rocks

You're all out there  
Waiting, to break my heart again  
Break my heart different  
You're on one team  
Yet still contemplating, break my heart  
Oh different

Let's have a drink  
Let's have a drink  
Do you see right there  
It's still you and me, oh oh  
Let's take a shot  
Since you've been taking shots  
And I love me to serve me this drink up on the rocks  
On the rocks  
And I love me to serve me this drink up on the rocks  
You never miss a good thing until it's gone

Now you're out there without me  
Breaking hearts again, oh dear friend  
But I try to tell you  
That love will show you that you would break your own heart in the end  
If you thought I'll ever go round won't catch up with you  
Let that don't hit your ass up, photoshop you out this picture  
See I wasn't around for this  
So you might wanna sit down for this  
It hurt so bad that I should cry awkward silence you know why

Let's have a drink  
Let's have a drink  
Do you see right there  
It's still you and me, oh oh  
Let's take a shot  
Since you've been taking shots  
And I love me to serve me this drink up on the rocks  
On the rocks  
And I love me to serve me this drink up on the rocks

If you thought I'll ever go round won't catch up with you  
Let that don't hit your ass up, photoshop you out this picture

Let's have a drink  
Let's have a drink  
Do you see right there  
It's still you and me, oh oh  
Let's take a shot  
Since you've been taking shots  
And I love me to serve me this drink up on the rocks

You never miss a good thing until it's gone  
And I love me to serve me this drink up on the rocks  
On the rocks
