

# Night Lovell, Dark Light

[Verse]

And I come back (And I come back)  
Niggas tryna flex (Niggas tryna flex)  
Tell me that I'm lost, I'm located in the back though  
Don't even wanna check (Don't even wanna check)  
Niggas still wanna call it a day  
Approach me, ain't got shit to say  
Talkin' to me like you wanted to stay  
When it come back around and you still tryna play (You still tryna play)  
Go and break it down for a nigga  
Go and break it down just a little  
Had love for a nigga  
But they steady playin' games with a nigga  
Steady throwin' names for a nigga  
One time for you niggas  
And I'm goin' with my stash (Stash)  
Tryna make it last (Last)  
Thoughts overflow like they did in the past  
And with me, they still tryna ask (They still tryna ask)  
Fuck you wanna know 'bout me?  
Fuck a nigga' bitch off a 40 oz  
Shit, I keep it low-key  
Many people sayin' that they know it  
Like there's plenty of that shit I ain't see  
Catch me overseas in a fuckin' white tee  
Bitches say, "Lovell, man, I really want the D"  
Niggas say, "Lovell, man, I really wanna see" (I really wanna see)  
You all know 'bout me

[Chorus]

Stress keeps buildin'  
Blood stops flowin'  
Brain got me open  
Gone off a potion  
Stress keeps buildin'  
Gone off a potion

[Outro]

Stress keeps buildin'  
Stress keeps buildin'  
Gone off a potion  
Gone off a potion  
Gone, gone off a potion
