Nightwish, Our Decades in the Sun

I climbed off your back Not so long ago To a blooming meadow To a path you'd made for the lightest feet

Mother
I am always close to you
I will be waiving every time you leave
Oh, I am you
The care, the love, the memories
We are the story of one

Father

I am always close to you I will be waiving every time you leave Oh, I am you The care, the love, the memories You are forever in me

This verse we wrote On a road home For you

All this for you

Our walk has been sublime A soaring ride and gentle lead You have the heart of a true friend One day we'll meet on that shore again
