

# Nightwish, Two For Tragedy

Sleep Eden sleep  
My fallen son  
Slumber in peace

Cease the pain  
Life's just in vain  
For us to gain  
Nothing but all the same

No healing hand  
For your disease  
Drinking scorn like water  
Cascading with my tears

Beneath the candle bed  
Two saddened angels-in heaven, in death

Now let us lie  
Sad we lived sad we die  
Even in your pride  
I never blamed you

A mother's love  
Is a sacrifice  
Together sleeping  
Keeping it all

No sympathy  
No eternity  
One light for each undeserved tear

Beneath the candle bed  
Two souls with everything yet to be said
