

# Niki Niki, Without U

Here we go

I don't want to stay with you  
I don't want to stay without you  
I don't want to stay with you  
Baby come on lady come with me

I don't want to live without u  
Cause I want to stay with you  
I don't want to stay without your love  
Baby come on lady come with me

You and me tonight  
Like a special party side by side  
The night is warm and lazy,  
Make me crazy  
With your lo - ove

Everyday I want you babe  
Cause I need you please don't go  
All the night  
I'll search for passion  
Cause I'm ready for your love

I don't want to live without u  
Cause I want to stay with you  
I don't want to stay without your love  
Baby come on lady come with me

I don't want to live without u  
Cause I want to stay with you  
I don't want to stay without your love  
Baby come on lady come with me

In my dreams I know  
You are the special light  
The love inside  
Make me high forever  
Now and ever  
With your lo - ove

Everyday I want you babe  
Cause I need you please don't go  
All the night  
I'll search for passion  
Cause I'm ready for your love

I don't want to live without u  
Cause I want to stay with you  
I don't want to stay without your love  
Baby come on lady come with me

I don't want to live without u  
Cause I want to stay with you  
I don't want to stay without your love  
Baby come on lady come with me

I don't want to stay  
I don't want to stay without you  
I don't want to stay  
Baby come on lady come with me
