

# NIKICE vs. POLINA GOUDIEVA, Believe

Time after time  
That shadow break us down  
When gets dark  
You gonna cry  
Just put on the face  
And play their part  
No ones around  
No ones watches  
I?ve been to the end of worlds and than back  
The the was all, was the way  
And finally come to this place  
It was inside me all long

If we could just believe  
We can be what we dream on  
/2x

We break the code  
To be free  
Leavin? behind who we used to be  
It?s a brand new start  
And we hold the key  
To magical world calling us

If we could just believe  
We can be what we dream on  
/2x
