

Nina, Until All Your Dreams Come True

I don't wanna get you in the summertime, summer's fine
I don't wanna get you until all your dreams come true
Don't wanna kiss you if I don't know that you've got it made
I don't wanna know you until all your dreams come true
Until all your dreams come true
Until all your dreams come true

You take somebody's dream
Though you should better chase your own
Happy part of your skin
So I am better off alone
I ain't searchin, I kept waitin
I know that I will have my way
If I should wake up, with you tomorrow
I must be sure that you have made your day

Heyiyeah heyiyoh
Until all your dreams come true
Heyiyeah heyiyoh
Until all your dreams come true

I know well what it means
To be living on my own
And I don't need someone like you
Who can't find his way alone
I will help you, as far as show goes
I know what I will get someday
If we should wake up, one day together
You'll be glad what I did say today
