

# Nine Inch Nails, Came Back Haunted

The throat is deep and the mouth is wide  
I saw somethings on the other side  
They may promise to never tell  
You know me I can't help myself, no  
Now I got something you have to see  
They put something inside of me  
The smile is red and it shines so black  
I don't think I'll be coming back

I don't believe and  
I had to see and  
I came back haunted  
I came back haunted  
I shan't comply but  
I had to try  
I came back haunted  
I came back haunted

Everyone now reminding me  
I am not who I used to be  
All my fakeness - this is just begun  
Consequences for what I've done

I don't believe and  
I had to see and  
I came back  
I came back haunted  
Came back haunted  
I shan't comply (I shan't comply)  
I had to try  
I came back  
I came back haunted  
Came back haunted

I don't believe and  
I have to see and  
I came back  
I came back haunted  
Tried to tell me but  
But I couldn't stop myself  
And I a came back haunted  
I came back haunted

Just can't stop  
Came back hau-hau-haunted  
Just can't stop  
Came back hau-hau-haunted  
Just can't stop  
Came back hau-hau-haunted  
Just can't stop  
Came back hau-hau-haunted  
Just can't stop!
