Ninja 9000, Live The Future

Everybody's looking for a meaning Everybody's doing their own thing And nobody's solving the problem Ain't nobody helping each other

Some people give into fear Some people give into hunger Some of us live for the future And some of us wonder And some of us wonder

Givin' into life, givin' into love Maybe there's enough for everyone Givin' into hope, and into trust Maybe there's enough for everyone

Everybody's looking for a meaning Everybody's doing their own thing And nobody's solving the problem Ain't nobody helping each other
