

Nirvana, Milk It

I am my own parasite
I don't need a host to live
We feed off of each other
We can share our endorphins

Doll steak!
Test meat!

Look on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and/or sleeping

I own my own pet virus
I get to pet and name her
Her milk is my shit
My shit it is her milk

Test meat!
Doll steak!

Look on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and/or sleeping

Protector of the kennel

Your scent is still here in my place of recovery!
