

# Nirvana, The Other Improv

It's an odd alliance  
It's another light I say  
What alone tonight  
Even if my eyes  
Even have some time  
Bet it all tonight  
Listen I have been banging away  
Even if you had a sight  
My  
It's mad enough tonight  
And forests have never grown  
It's another light  
And I can never have mine  
It's not mine  
It's not mine  
Instead I hide  
I've been here for my friends  
I never know if I said  
Watching out for me  
When I can love you  
Have your way  
And she might as well know I  
Seem more high  
High  
Than  
I said minerals will make the world  
If we did not have chemicals  
You would not be writing my death certificate  
Biting is my friend  
My dog left me a sand send  
One more day than I can plan  
Ends safe from you  
Biting ass a lie friend  
When I will never have a friend  
Biting silent as a man  
His silence setting up around  
And she improvised  
And she was supervised  
I was a rised  
Or arosed  
Or a rose  
Or a rose  
Or aroused  
And fine  
Fine line  
When I  
Said night time  
When I  
Could never kind  
And I  
My milk is your shit  
My milk is your shit  
It's hard and boiled  
And sour all again  
My milk is your shit  
It revolves  
It evolves  
Cause it's biting out what would  
My milk is your shit  
My milk is piss  
Don't you love that I can bite
