

niXes, Hole In The Universe

Take me to the otherside
take me to the place there I want to
to the spot I can hide
And Dream away

Bringing me back the memory
make me feel hole just once again
let me stay in reverie
And fade away

Hole In The Universe
Hole In The Universe
Hole In The Universe
Hole In The Universe

keep my eyes open wide
never let them be so closed again
this is my place to hide
and run away

call my name when I'm lost
I don't want to be here any more
save me when you
here my voice
I'll pass away

in your fiery eyes
I can melt away
In the final day
open up the door
you will know the score
In the final day

Hole In The Universe
Hole In The Universe
Hole In The Universe
Hole In The Universe
