

NLE Choppa, Apart From You

Mmm

Mmm

Ayy-ayy, ayy-ayy, wo-o-o-oah, wo-o-o-oah
(CashMoney, CashMoney, AP) Woo

Let's go somewhere that only we can go
I'll make you feel somethin' only I can do
Slow stroke and back and forth while I'm on top of you
I know you feel my absence while I'm apart from you
Let's go somewhere that only we can go (Only we can go)
I'll make you feel somethin' only I can do (Only I can do)
Slow strokin' back and forth while I'm on top of you (Top of you)
I know you feel my absence while I'm apart from you

Private beach, you and me, so discreet, your soul, aqui
Honestly, intuitively, no second guessin' if you the one for me
Nobody match your physique
From head to toe, you so unique
You a freak and I'm a freak
Made her tat' my name by her pussy
'Cause if you love me, you gon' do whatever whenever
Can you carry my kids? Fuck that, carry several?
Nuttin' in you on the first time that I met you
And I did it on purpose 'cause I want you forever
And I use my heart, I'm tired of wearin' it on my sleeve
Playin' my part 'cause you the missin' piece I need in this puzzle
Might argue with you, I don't wanna 'cause trouble
I just wanna make sure you really down if I love you
'Cause them others hoes was fake, I don't feel that with you
But I still put you through the test
Don't like to question my faith
But I got trust issues from the dealings with my ex
It won't be too long 'fore my trust 'bout to grow
I'ma right my wrongs if you right yours too
Just play this song if I'm not by you
But I'm in your heart, somethin' you already knew
Love is a drug that got me on
Tough on other feelings, so alone

Let's go somewhere that only we can go
I'll make you feel somethin' only I can do
Slow stroke and back and forth while I'm on top of you
I know you feel my absence while I'm apart from you
Let's go somewhere that only we can go (Only we can go)
I'll make you feel somethin' only I can do (Only I can do)
Slow strokin' back and forth while I'm on top of you (Top of you)
I know you feel my absence while I'm apart from you

Let's go somewhere that only we can go
I'll make you feel somethin' only I can do
Slow stroke and back and forth while I'm on top of you
I know you feel my absence while I'm apart from you
Let's go somewhere that only we can go (Only we can go)
I'll make you feel somethin' only I can do (Only I can do)
