

NLE Choppa, BEFORE I

Ayy, before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work
Bitch, yeah, you know what I'm sayin'?
NLE, Top Shotta, got the bombs like Al-Qaeda
Nigga, yeah, ayy, ayy, ayy, ayy

Ayy, before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work
Ayy, before I go to sleep, I gotta get some head
That's how I want my day to end, wake up and get it again
Before I trust you with my money, rather give it to my mama
Broke boy got too much problems for the drama, for the drama
Before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work

Ayy, living with you, we don't come from miles
Thinkin' with his dick, I had to improvise
I'ma send a ho' to get the low back
Don't Joe tag on his torch, let's go
Me and my guys, not the other niggas
Like the toilet, we quick to go flush a nigga
He ain't blood-related, but my brother nigga
If he say he fuckin', then he fuckin', nigga
Good by myself, nigga, I don't need nobody
Hit it through the body, but I don't really talk 'bout it
Cop one, pop one, stop one, drop one
Lip got runnin', so I'm gone when the cops come
When you suck my dick, ho', break your neck
When you ride this dick, ho', break a sweat
I ain't never hit no ho 'til she dry
Every time I'm in, that shit wet
Love a lil' ho' that eat, eat, ridin' me, baby jet, like a seat geek
I don't need no freak, need a freak, freak
Every night, every day of the week, week
Freak me, she be wet, wet, sneak peek on her SnapChat
Suck dick, pat her on the back, back, she my baby, like Similac

Ayy, before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work
Ayy, before I go to sleep, I gotta get some head
That's how I want my day to end, wake up and get it again
Before I trust you with my money, rather give it to my mama
Broke boy got too much problems for the drama, for the drama
Before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work

Good morning, motherfucker

Today was a good day, ayy
Today was a good day, I woke up with the K
Bass in the trunk, shit sound like 808
Move it, Donald Trump, she got white all on her face
Ayy, O.J., MJ, glove on, beat it, blow my whistle in completion
Fuckin' on an angel in the backseat of the demon
The only meat I eat is ass, but a nigga vegan
Always on go, mama said "Need to stop that"
Get up close, I ain't shootin' from far back
OG told me "Keep dope where my sock at"
In my hand with my Glock, yeah, I shot that
Hakuna matata, mata hakuna
I'm fuckin' a model, ba-da-da, boom, boom, boom, boom
Buyin' every trigger, go doo-doo-doo, doo-doo-doo
Hit 'em with the Drac', he doin' the booty-do, bitch

Ayy, before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work
Ayy, before I go to sleep, I gotta get some head
That's how I want my day to end, wake up and get it again
Before I trust you with my money, rather give it to my mama
Broke boy got too much problems for the drama, for the drama
Before I bust a move, I gotta pray first, say a verse
Wash my hands before I touch the work, ayy
