

NLE Choppa, Still Hood

(CashMoneyAP)

Turn me up

A lot of these niggas be faking and flodgin', we keep this shit thorough

No cappin', no yappin'

Everything we livin', everything we doin'

Put this shit in they memories

This shit right in the booth

Aye, whip it, whip it, whip it, whip it, whip it real good

Mismatchin' different designers, aye, but I'm still hood

You know it ain't hard to find us, we might be in your hood

Brodie beggin' to get active, it make 'em feel good

I watch my day one turn to snake, I got 'em out the way

You can ask 'em how that fye look, when they jump out that Drac

A different day, a different case, I'm fightin' to escape

I got the upmost faith that I'ma make it out okay

Aye, I done been stuck in the bottom with sharks and piranhas

The robbers and gunners and runners, I swear I been left without nothin'

We really was strugglin', thank you, Lord

Look at me wrong and I'm uppinn' and I'm bussinn'

I'm paranoid, I be clutchin' in public

Not scared of you, I'm just scared of the shit I did, might catch up, Lord

Put him in the morgue, end of the story

Love my life, I got more of it

Before you take me from the shit that I built

I'ma have to go and destroy it

Had to destroy you in the process with it

Lil' children, looking at me like the spittin' image of God's spirit

But you better be God fearin', on me

Living life with no complaints, plenty money in the bank

Remember scrapin' up change

If my new deal less than seven mill', they gon' have to go walk that plank

New grill from Johnny Dang

When I eat the pussy, got her screamin', "Flawless Gang"

If me and you hit a lick, my loyalty run so deep, I split it with the gang

I done been crossed by niggas I love

I heard the same shit happened to Christ

I done seen a snake eat a mice

Then get snaked out the same night

Ever asked the plug what's the price?

Then took 'em down, when the shit wasn't right

Never ever said that I was right

Just get in the booth and talk about my life

Aye, whip it, whip it, whip it, whip it, whip it real good

Mismatchin' different designers, aye, but I'm still hood

You know it ain't hard to find us, we might be in your hood

Brodie beggin' to get active, it make 'em feel good

I watch my day one turn to snake, I got 'em out the way

You can ask 'em how that fye look, when they jump out that Drac

A different day, a different case, I'm fightin' to escape

I got the upmost faith that I'ma make it out okay

Aye, aye, one thing never seen was a hoe that won't go and a bow not sold

I done seen the toughest nigga try to fight but the Choppa knock 'em out cold

I done seen a nigga cop a pipe by the end of the night had no pole

Know a nigga with a hunnid something guns, never even let one blow

Slap thirty in the stick, put my trust in this blick, not no hoe

Even when that bitch jammed, on me swear on everything, it saved my soul

I was on camera with that bitch, pokin' out, imagine if I had unloaded

Niggas 'round me was gon let me crash out, this shit really be bogus

Now my circle small, peep holed it

Bread loaf got bigger now
Ain't no more bread crumbs in my hand, look again, it's the large amount
Bad bitches that I'm fuckin' but still can't put the hood hoes down
Got a bitch comin' out the south
Eat it out the bone, she from orange mound
Before six people carry, I'ma let twelve people judge me
Know that sight get scary, fightin' first degrees, yellin', "Free me!"
Rather hear, "Free me" then "RIP" with my face on the tee
Do my time, lay it down in that bunk, never let a nigga hoe me

Aye, whip it, whip it, whip it, whip it, whip it real good
Mismatchin' different designers, aye, but I'm still hood
You know it ain't hard to find us, we might be in your hood
Brodie beggin' to get active, it make 'em feel good
I watch my day one turn to snake, I got 'em out the way
You can ask 'em how that fye look, when they jump out that Drac
A different day, a different case, I'm fightin' to escape
I got the upmost faith that I'ma make it out okay

Whip it, whip it, whip it, whip it, whip it real good
Mismatchin' different designers, aye, but I'm still hood

Whip it, whip it, whip it, whip it, whip it real good
Mismatchin' different designers, aye, but I'm still hood
