

NLE Choppa, Watch Out

At the trap we load it up who at the door
If you think 'bout walking in 'cause you see one it's gon' be four
Please don't come here acting tough because it's four and plus some more
If you reach inside your pockets we gon' empty out the pole
You just, need to, need to watch out
Because your gang ain't gon' save you with all these Glocks out
I put your shooters on the payroll, make 'em clock out
Don't need to do no dirty work 'cause I'm on top now

Put your gun up, weak bitches get done up
Won't ever catch me lacking, if you do you better run up
You looking like a groupie, type of bitches we make fun of
Ain't friendly with no hoe because they always try to one up
Been gettin' money, in love with the cream
Strap with the clip and it came with a beam
Ain't been asleep 'cause I'm living a dream
Bitch I am cocky, ain't rapping for free
Dash in the whip and it don't got a key
Hang with the bosses, I live like a G
Started on go and I give 'em that coma
Slide on your block and we nothing to squeeze

At the trap we load it up who at the door
If you think 'bout walking in 'cause you see one it's gon' be four
Please don't come here acting tough because it's four and plus some more
If you reach inside your pockets we gon' empty out the pole
