

Nneka, Shining Star

In this madness,
in this world with its swiftness and its coldness,
you're my peace of mind
When the world just keeps turning
and I know not where to head to,
you're my peace of mind
And when I look up to the skies
and see all that you've created,
nothing else does count
But your everlasting love

Oh shining star, when you smile down at me
Oh what you are, when u look down at me
Beautiful star, do keep your eyes on me
Oh what you are, when you look down at me

Despite my greed,
you wanted just me,
though I am hard, strict,
still you love me

I appreciate you baby eh...ee
And though you seem so far away,
you are so near I can feel you
Your light, it dwells within my mind
And I know you are sometimes lonely
and oh how I wish that I can change it
But all I know is you got me
And I pray my love would give you life,
to help you breath,
to keep your smile
My shining star, so take my love and live

Oh shining star, when you smile down at me
Oh what you are, when u look down at me
Beautiful star, do keep your eyes on me
Oh what you are, when you look down at me

With you, I feel love
When you place your light on me, I feel warmth...

Oh shining star, when you smile down at me
Oh what you are, when u look down at me
Beautiful star, do keep your eyes on me
Oh what you are, when you look down at me

When you smile, I smile
When live, I live
When you die, I die
Oh yeah... you
I want shining star
Oh I wonder what you are
