

No Angels, Maybe

Maybe its the way you used to love me
Maybe its the way I feel you now
Im feeling like the sky is fallin on me
And my life is tumbeling down

Maybe Im lost in the moment
I dont wanna be found
Feel like I must save the moment

Maybe Im a fool for lovin you
Maybe youre right and maybe Im wrong
Maybe cause I dont know what to do
Wont somebody please help me
Maybe I got something else to say
It really doesnt matter anyway
Its just a little word an empty call
No maybe means nothing and all

Maybe one day I win the lottery
Maybe Ill be poor all my life
And there so many possibilities
All I got to do is try try try

But Im still lost in this feeling
Now I wanna be found

Can anyone stop me from falling

Maybe Im a fool for lovin you
Maybe youre right and maybe Im wrong
Maybe cause I dont know what to do
Wont somebody please help me
Maybe I got something else to say
It really doesnt matter anyway
Its just a little word an empty call
No maybe means nothing and all

I wont be waiting I cant be waisting no more time
Cause I got dray the line sometime
No second guessing its only messing with my lige
I dont want it anymore no

Maybe Im a fool for lovin you
Maybe youre right and maybe Im wrong
Maybe cause I dont know what to do
Wont somebody please help me
Maybe I got something else to say
It really doesnt matter anyway
Its just a little word an empty call
No maybe means nothing and all
