## No Doctors, Yerba Buena

Listen up! I spied an island rising on the sea, Dropped in the anchor! found a lock, I made the key for free, Felt a breeze, cracked a nut, I slept between two trees, Hear the hula lullabies, then I opened up my eyes,

Yerba Buena what I know! Yerba Buena everywhere I go! Yerba Buena everything you say! Yerba Buena every single day!

Smack the drum! trace the sound of feet upon the ground, One or another! you're the son, you're the brother I have found, Build a ring, let it sing as people gather round, Look into the sky and see, clouds are looking back at me,

Yerba Buena what I know! Yerba Buena everywhere I go! Yerba Buena everything you say! Yerba Buena every single day!
