No Doubt, Trapped In A Box

Trapped in a box of tremendous size
It distorts my vision, it closes my eyes
Attracts filthy flies and pollutes in the skies
It sucks up our lives and proliferates lies
Trapped in a box
Trapped in a box, four walls as sky
Got a screen for a window about two feet wide
My mind rides and slides as my circuits are
fried
No room for thought, use the box as my guide
Trapped in a box

Ooh trapped in a box Watch the world as it flocks To life's paradox And we're all trapped in a box

Oh trapped in a box I'm not alone I know of others with a box as their home Light only enters from a crack or a hole Oh this is not enough for a human to grow Trapped in a box

Ooh trapped in a box Watch the world as it flocks To life's paradox And we're all trapped in a box

Always wanting a different view Instant gratification for you Reality gone with a single click Just hope that that switch won't stick

Ah trapped in a box my life becomes void And all of the thought for myself's now destroyed Controlling my mind, what to eat, what to buy Subliminal rules: how to live, how to die Trapped in a box

Ooh trapped in a box
Watch the, the world as it flocks
To life's paradox
And we're all, we're trapped in a box
Ooh trapped in a box
Watch the world as it flocks
To life's paradox
We're all trapped in a box

Ooh ooh ooh Ooh ooh ooh Ooh ooh ooh We're all trapped in a box
