

# No Doubt, Up Yours

Trapped in a box of tremendous size  
It distorts my vision, it closes my eyes  
Attracts filthy flies and pollutes in the skies  
Sucks up our lives and proliferates lies  
Trapped in a box  
Trapped in a box, four walls as sky  
Got a screen for a window about two feet wide  
My mind rides and slides as my circuits are fried  
No room for thought, use the box as my guide  
Trapped in a box  
Trapped in a box  
Watch the world as it flocks  
To life's paradox  
We're all trapped in a box  
Trapped in a box I'm not alone  
I know of others with a box as their home  
Light only enters from a crack or a hole  
This is not enough for a human to grow  
Trapped in a box  
CHORUS  
Always wanting a different view  
Instant gratification for you  
Reality gone in a single click  
Just hope that that switch won't stick  
Trapped in a box my life becomes void  
All I thought for myself is now destroyed  
Controlling my mind, what to eat, what to buy  
Subliminal rules: how to live, how to die  
Trapped in a box  
CHORUS
