

Noga Erez, Come Back Home

You say u wanna build up bridges
You say u wanna glue and stitch this
You say u wanna go no secrets
What the fuck is this?

U say you want a tight connection
And I don't show enough affection
Dick move, got a big erection
Thought I should mention

I can't wait to hear the sound
Of you marching back in town
So won't you count it down

Come with your flowers, Take off ur shoes
They stopped the fire, I read the news
My love is timeless, I wait by the phone
Don't leave me hanging
Please just come back home

We're in the kitchen
We're breaking dishes
Talking shit
Throwing words and knives
This home is warfare
I'm shooting the flare
Because it's all fair in war and love
Or was it love and war?

I can't wait to hear the sound
Of you marching back in town
So won't you count it down

Come with your flowers, Take off ur shoes
They stopped the fire, I read the news
My love is timeless, I wait by the phone
Don't leave me hanging
Please just come back home

Come back with flowers, Hang up ur shoes
I set the table, waiting for u
My love is timeless, I wait by the door
Don't leave me hanging
