

Nomy, Scarecrow

Scarecrow

Every single day has been a fucking conclusion
trying really hard to find the perfect solution

But every damn night that I had you in my head
Its all the same once when I wish I was dead

So bring me justice bring her to me

Help me God Im going crazy

She's in my head and she's not leaving

So leave me alone

I wont take it anymore

You evil fucking whore

I dont want no buisness with a girl that never smiles

I dont want no buisness with a girl that allways lies

Stay low tomorrow now hear me all

Here comes scarecrow and I will fall

no more

Watch out for the scarecrow my friend

Let's place her on field too stay

Watch out for the scarecrow my love

Dont let her make you run away

Every singel day has been a mental disaster

Trying really hard to make the days go faster

But every damn day That I had too be with you

Its all the same days that I wish I could die too

So bring me justice bring her to me

Help me God Im going crazy

She's in my head and she's not leaving

I dont want dont want want to be too close to be you

You cant see see cant you see what I dont wanna be

I want want to too to you

you see cant see I

I dont want no buisnees with girl that wants me bad

Bring me justice bring her too me I will make her sad
