

Nomy, Set Your Anger On Fire

So you want me to need you

You want me to see you

you want me to like you

The things I can not do

I wanna be the stone falling down on you

I wanna be your anger, your fire,

[Chours]

I can not help you

I dont want to

Get a way

[Chours end]

so burn litle girl you will twist and turn

And you'll scream and you'll cry cause I can not lie

I wont fall back on you I would brake your heart in two

So burn [x4] pretty anger

So burn [x4] pretty anger

But Now Cant help I'm falling I'll give you my pain

So take this black soul I offer It's shattered like rain

A guilt that is in me that you can not see

I'll brake you my pretty savior my victim you'll be

[Chours]

So burn [x4] pretty anger

So burn [x4] pretty anger

So burn litle girl you will twist and turn

And you'll scream and you'll cry cause I can not lie

I wont fall back on you I would brake your heart in two [x2]

So burn [x4] pretty anger

So burn [x4] pretty anger

[Chours]
