

# Norah Jones, Wintertime

I'm alone, but I feel alright  
In the summertime and the fall  
In the spring when the house is dark  
Doesn't bother me at all

i know /2x  
it's in the light  
the shadows start to move  
there's a hurt in the wintertime  
makes it hard for you

there's a dream, a dream I had  
that makes me sad on the road  
the sun keeps running from  
everyone I love

i know /3x  
I am leaning /2x  
on you  
it's hard  
I know /2x  
there isn't much that you can do

i know /3x  
I'll make it /2x  
through  
in the wintertime there's a candlelight  
I only get from you

i know /2x  
it's only light to you  
but there's a thing called the wintertime  
I can't make it through

i know /3x  
I am leaning /2x  
on you  
it's hard  
I know /2x  
there isn't much that you can do

i know /3x  
I'll make it /2x  
through  
in the wintertime there's a candlelight  
I only get from you
