

Norma Jean, Put Your Arms Around Her

Put your arms around her that's where your love is
Don't let my broken heart stand in the way
Put your arms around her that's where your heart is
Maybe I can get over you someday
I've tried so hard to hold you but you slipped through my arms
So if that's the way it has to be
Put your arms around her that's where your dreams are
And if you're happy then that's good enough for me
(steel)
I've tried so hard to hold you...
