

# Northlane, Dream Awake

Pay close attention  
Or else you'll miss what's happening  
Pay close attention  
Or else you'll miss what's happening

We worship the sun  
Yet we burn in its rays  
So we seek out the dark  
So we seek out the shade  
It's such a mix of emotions  
We call it regret  
Chaotic patterns unfold  
It's such an elegant mess  
So I'll embrace all the pain  
It's time to face all my fears  
I've had enough of this game  
Oh how it brings me to tears  
And I can only be sure  
One day I won't be alive  
Stepping into the future  
With the brightest of eyes  
Let time stand still  
For one second, please just stop

Oh my  
It's frightening  
It's right in front of my eyes  
Oh my  
It's right there  
It's right in front of my eyes

Wake up from the nightmare  
And become the dream  
Wake up from the nightmare  
And become the dream  
That you've always been  
That you've always seen  
Wake up from the nightmare  
Because you are the dream

I stand tall, grounded here on this earth  
I'm looking up at the sky  
With the stars in my eyes I'm alive  
I'm looking up at the sky  
I see life was my dream all along  
I'm looking up at the sky  
My self  
My world  
My people  
My home, my everything  
My self  
My world  
My people  
My home, my everything
