

Notarthomas Jamie, I'm Not Your Slave

I want perfection. Give me success
Make it faster, I'll take the best
Striving for freedom Then locking the door
The grass is always greener
We always want more... more... more
I want it so much I need it
I need it so much I want it
I love it so much I hate it
Set me free, I'm not your slave
I'm not your slave
We've got the desires We've got our needs
And the obsessions And the greed
We got the coke to make us happy
We got the money to make us feel secure
Either I want it so much I need it
I need it so much I want it
...I don't know
I love it so much I hate it
Set me free, I'm not your slave
I'm not your slave no
Set me free, let me go
I'm not your slave no
Set me free, let me go, I'm not your slave
Visions of women in various positions
Capture my mind, It won't let go,
...won't let go
Look at those eyes and the curves
I can't resist the urge, the nerve,
I'm burning 'cause
I want it so much I need it
I need it so much I want it, ...help me
I love it so much I hate it
Set me free, I'm not your slave
I'm not your slave no
Set me free, let me go
I'm not your slave no
Set me free, let me go, I'm not your slave no
